

The safety and stress care for pets ZERO PET+

—The electromagnetic wave and stress are overflowing—

We have been living with full of electric appliances such as smartphones and home appliances.

Those causes the "electromagnetic waves."

They may adversely affect the human body, and WHO(World Health Organization) also acknowledges those risk.

And the risk of health damage due to electromagnetic wave is not only related to human, but also to animals such as your lovely pets.

By keeping electromagnetic waves for a long time, the body feels stress and has various bad effects.

That is called **electromagnetic stress**.

—We protect your lovely pets—

The ZERO series developed by our company is a completely new product which has never existed before. Utilizing electromagnetic waves, we will create "zero magnetic field (healing space)" and will care for daily "electromagnetic wave stress". In addition, ZERO also has an effect (**antioxidant effect**) which makes it difficult to reduce the quality of foods such as water and food. We will support pet health management through healing techniques.

ZERO series
total 5 million sales!
