ZERO Basic & ZERO Smart

—Protect you from electromagnetic stress—

Electromagnetic waves are overflowing

We live with many electric products including smartphones, Do you know that "electromagnetic waves" exist in the same way? Since "electromagnetic waves" are invisible, there are many people who do not mind. There is a risk of adversely affecting the human body.

You can only put seals on smartphones!

The ZERO series demonstrates its effect simply by sticking it on a smartphone, tablet, portable game machine and so on!

—Mechanism of Zero magnetic field generating substrate—

Absorb radio waves and electromagnetic waves from the antenna and create zero magnetic field by flowing current in the coil.

What's Zerojiba? 「HEALING ZERO FIELD®」

ZERO FIT incorporates a zero magnetic field generation circuit, which absorbs and utilizes radio waves and electromagnetic waves in the living environment to create an energy field very close to the power spot. That is "zero magnetic field". "Zero magnetic field" gives various good effects to the human body.

ZERO protect you from electromagnetic stress!

ZERO have 3 kinds of effect!
1. Stress relieving effect 2. Relaxing effect 3. Enhancement of antioxidant power For each item we tested for 60 minutes each, the following results are available even in a short time.

- ◇ The degree of stress is reduced by 13% than usual
- ◇ Brain alpha wave doubled than normal
- ◇ 11% increase in antioxidant capacity

※For details, please visit our website.

ZERO Basic

—Just paste on smartphones and gaming monitors—

Thick potting process Luxury finish
Color line ups
Package

ZERO Smart

—The thinnest design within the ZERO series!—

The substrate circuit is kept intact Latest thin design
Good for smartphones
Package

Size : 25Φ×1mm
Package size : H180×W100×D2mm
Color : 6 colors
Materials : FR-4 Double-sided Printed Wiring Board (Overall Plating Process) Surface acrylic resin finish, polycarbonate, slightly adhesive double-sided tape
Part number : ZM-41~ZM-46
Price : 1,200 yen (tax-excluded)

Size : 25Φ×1mm
Package size : H180×W100×D2mm
Color : Gold or Silver
Materials : FR-4 Double-sided Printed Wiring Board (Overall Plating Process) Surface acrylic resin finish, polycarbonate, slightly adhesive double-sided tape
Part number : ZM-25(Go) ZM-26(Sv)
Price : 1,200 yen (tax-excluded)
